

# Halal Meat

## Shame on Britain!

Halal meat comes from animals that have been cruelly and ritually slaughtered.

- The animal enters the slaughter area fully conscious of other animals being slaughtered  
It is tied up and winched upside down
- A Muslim Imam recites a prayer from the Koran and cuts the throat of the animal with a knife
- The panic-stricken animal convulses, with its own blood gushing into its lungs and over its face and eyes
- This agonising death takes several minutes

### The science

Award-winning scientist, **Dr Craig Johnson**, of New Zealand's Massey University, has proved beyond doubt that ritual slaughter is a painful and terrifying ordeal.

# Animals deserve better

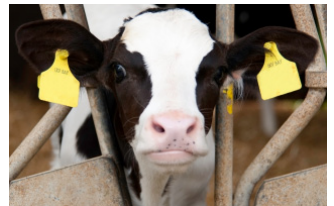

**As a civilised people it is our responsibility to treat animals with decency. The way we treat animals reflects on us as people and on our society.**

British law says that animals slaughtered for food must be either electrically stunned (in the case of pigs) or killed instantly by a bolt action gun in the case of other animals. This process is instant, painless and humane.

It is wrong on every level that Labour and Conservative/LibDem governments allow the horrific practice of ritual slaughter.

The British people are rightly proud of taking animal welfare to our hearts. Bringing an end to the ritual slaughter of animals is the right thing to do.

This barbaric practice highlights the need for one set of laws governing everyone equally. A core British National Party policy is that there can be no exception from British law on religious grounds, because it's fair and right.

----- ✂ -----

**YES, I agree** that the ritual slaughter of animals should be banned in Britain.
